
NATIONAL RADON SAFETY BOARD (NRSB)

EPA REGION 8. Westminster, CO 2023

**CERTIFICATION SERVICES FOR RADON
PROFESSIONALS**

National Radon Safety Board
NRSB
Certified Radon Professionals
Operating since 1998

ABOUT THE NRSB

NRSB certification is a formal recognition by the EPA and the States for professional excellence based on qualifications, high ethical standards, and continuing education in radon services. We are a non-profit organization operational since 1998 when the EPA privatized it's radon proficiency program.

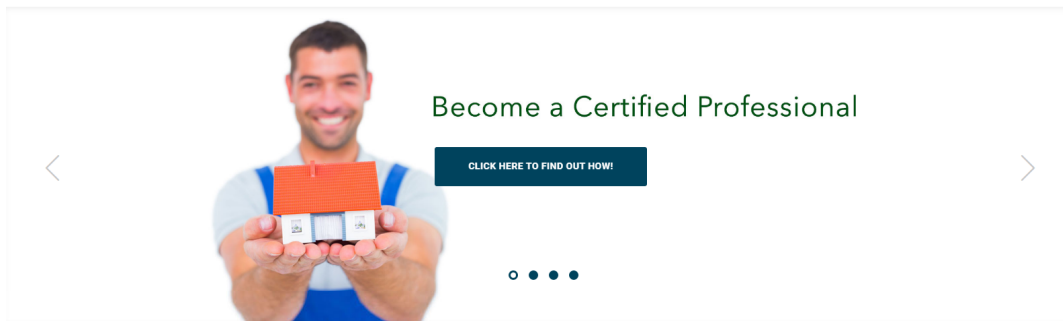

- The National Radon Safety Board (NRSB) certification program offers independent certification, accreditation, and approval for:
 - Measurement Specialist (RMS), Measurement Technician (RMT) & Mitigation Specialist (RRS)
 - Laboratories & Chambers
 - Evaluation & Approval for devices
 - Evaluation & Approval of educational courses

ABOUT THE NRSB

- NRSB is independently run by volunteer board members
- We offer quality services at a reasonable cost
- We offer the option to be certified for 1 or 2 years
- There is only one fee per application
- No additional fees per device type
- No additional fees per state operating in
- For CRM device users, proficiency tests are only required once
- We ensure our certified professionals are educated on correct practices

Certifying radon professionals for over 20 years!

NRSB certification is formal recognition of professional excellence based on qualifications, high ethical standards, and continuing education in radon services.

In today's competitive environment, industry training providers and industry professionals need to be recognized for their knowledge and expertise.

We believe that the quality of the nation's radon programs depends upon confidence in the integrity of its' certification process. The National Radon Safety Board (NRSB) stands alone in its' ability to provide this confidence.

The NRSB provides recognizable conformance to quality and confidence in the radon industry.
