

Mashkiiziibii Tribal Radon Program

Bad River Reservation Location

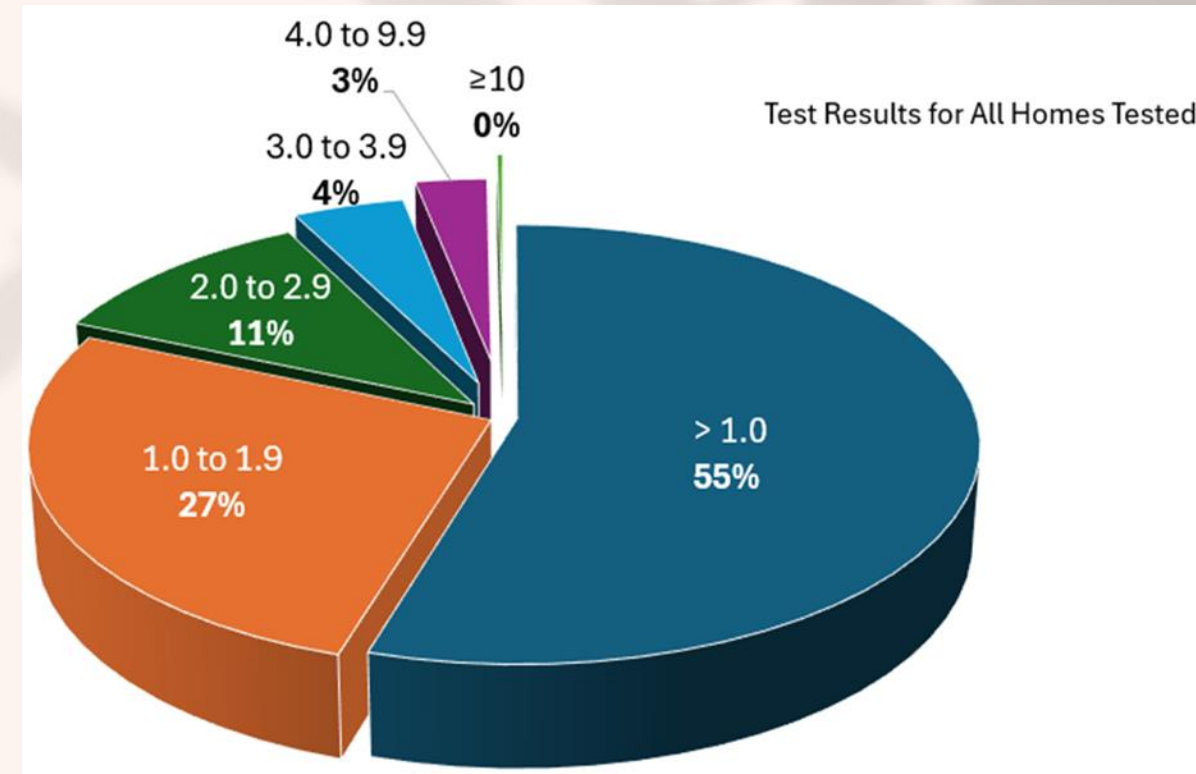

We are located in the Northernmost part of Wisconsin on the shore of Lake Superior.

Within the Reservation boundaries there are about 600 homes on reservation. With most of them being clustered along US Highway 2.

Radon Testing

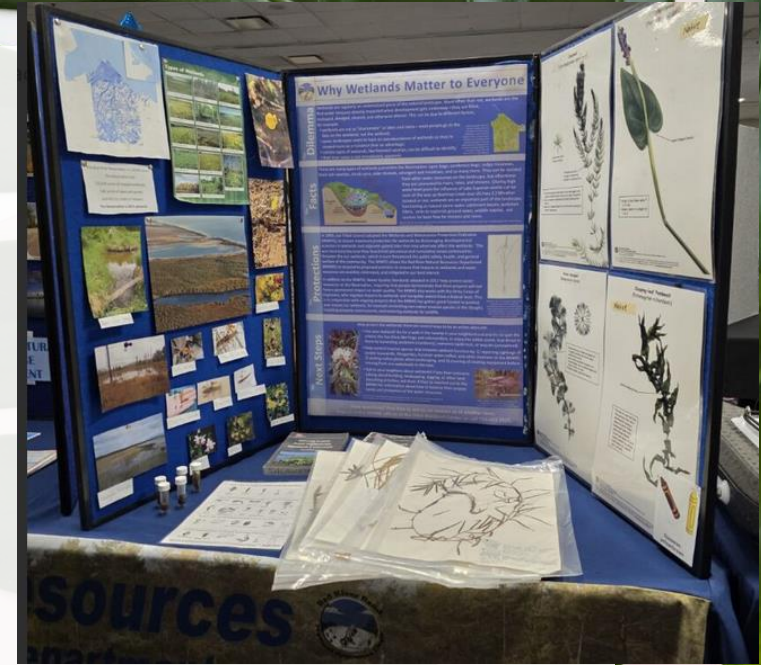

- 125 short-term test kits were distributed.
- Purchased and E-PERM devices to make testing more sustainable
- Updating our QAPP for the new device
- All testing information is tracked and stored in the Tribal Radon Database

Outreach and Education

- Lake Superior Day
- Tribal Environmental Program Management (TEPM)
- We hosted a lunch and learn for the clinic staff to introduce them to the project That night we also held a community listening session
- Elder lunch and Breakfast
- This year was our biannual Natural Resources open house.
