Office: 225-342-3500
628 N. Fourth Street
Baton Rouge, LA 70802

The Louisiana Department of Environmental Quality's (LDEQ) mission is to provide service to the people of Louisiana through comprehensive environmental protection in order to promote and protect health, safety and welfare while considering sound policies regarding employment and economic development.

Indoor Environmental Quality Education Service (IEQES) provides telephone consultations for mold and other indoor environmental quality concerns. Printed information is also available upon request. The section does not provide inspections or sampling of homes or buildings, nor conduct mold remediation services. We can, however, provide guidance on how to select private environmental consultants but can not recommend specific contractors.

Louisiana Pending/Enacted Legislation

There are no pending or enacted radon legislation in Louisiana.
